Subject: Follow-on Call No. 3 re: Initial Results (SB27&28), Plant S/D, OU3, PVGCS Site

For discussion on this call are to provide an update and to present the lab analytical results obtained for soil samples collected at PDI-SB27 & 28. We also would like to coordinate decision-making over the weekend as we complete these next pair of soil borings and look to additional soil boring locations to take advantage of the remaining time of plant shutdown.

-Bruce
